

AppCompatActivity

```
classDiagram
    class AppCompatActivity
    class TremorActivity["com.example.android.wearable.wcldemo.TremorActivity"]
    TremorActivity --|> AppCompatActivity
```

The diagram illustrates a class hierarchy. At the top is a box labeled 'AppCompatActivity'. Below it is a larger box labeled 'com.example.android.wearable.wcldemo.TremorActivity'. A blue arrow points from the bottom of the 'TremorActivity' box up to the bottom of the 'AppCompatActivity' box, indicating that TremorActivity inherits from AppCompatActivity.

com.example.android.wearable.wcldemo.  
TremorActivity
